

BDC - The Business Development Company GmbH (BDC) in Hochwald/Basel, Switzerland specializes in technology brokerage, business development and management of intellectual property rights in Life Sciences.

IP ANNUITY FEE PAYMENTS SERVICE

BDC together with its partner organization IPRIS in Basel has developed a special IP annuity payment service on a discounted rate basis available to all patent and trademark holders. BDC/IPRIS offers **worldwide** payments of maintenance fees for granted patents, applications and trademarks. In this context BDC has totally re-engineered the process of paying the maintenance fees and can thus offer to its clients conditions which are generally only available for companies owning a large number of patents. Consequently, **handling fees** connected with paying annual fees of granted patents can be reduced **by about 30% or more**.

Your advantages:

- Yearly renewal portfolio list
- Renewal/annuity decision list, with cost estimates and requirements
- One contact address for the entire world
- Currency for all invoices at your choice/convenience

In order to get an idea on BDC's prices some ranges for annuity payments, dependent on the number of patent families or countries, respectively, are given below:

- CH patents and trademarks 140 CHF
- Granted EP patents, EP applications, trademarks 150 to 280 CHF per country
- Oversea patents and patent applications, trademarks 150 to 300 CHF per country

Please note that BDC's handling fee is an all-inclusive fee independent of the amount of the official fee, the annuity year and country. There are no additional costs for copies, faxes, costs for patent office confirmations or local patent attorney fees. Due to BDC's location in Switzerland there is no VAT to be added on BDC's service for companies outside Switzerland.
